PROFESSIONAL SUMMARY

Full Stack Developer with over 3 years of experience building end-to-end CRM and SaaS applications using React.js, Node.js, Express.js, and MySQL. Specialized in real estate CRM platforms involving analytics dashboards, loan workflows, secure authentication, and scalable architecture. Proficient in leveraging AI-assisted development tools such as GitHub Copilot, Cursor, and Claude AI to enhance productivity and code quality.

PROFESSIONAL EXPERIENCE

Full Stack Developer

Creative Ethics Pvt. Ltd., Madhapur – Hyderabad | July 2023 – Present

- Designed and developed scalable full-stack web applications using React.js, Node.js, Express.js, and MySQL.
- Led the end-to-end development of a real estate CRM system from requirements gathering to production deployment.
- Designed and developed RESTful APIs with secure authentication, validation, and role-based access control.
- Built responsive admin dashboards using React.js, Material-UI, Tailwind CSS, and Chart.js.
- Developed Lead Management, HRM, Employee Management, Attendance, Payroll, Inventory, and Project Management modules.
- Implemented JWT authentication, protected routes, and role-based authorization.
- Optimized MySQL database queries and schema design, reducing API response time by 30%.
- Integrated third-party libraries including Nodemailer, Multer, PDFKit, and other backend utilities.
- Developed reusable React components and optimized frontend performance for better user experience.
- Managed Git/GitHub repositories and collaborated using Agile methodologies and sprint planning.
- Deployed and maintained applications on Linux, cPanel, and GoDaddy hosting environments.
- Performed bug fixing, performance optimization, and production deployments.
- Handled over **15+ REST APIs** serving more than **10,000 monthly requests**.
- Collaborated with designers, QA engineers, and business stakeholders to deliver scalable software solutions.
- Utilized AI-assisted development tools including GitHub Copilot, Cursor, and ChatGPT to accelerate development, debugging, code reviews, and documentation.

KEY PROJECT—REALESTATE CRM PLATFORM

- Architected and developed a production-ready Real Estate CRM platform using React.js, Node.js, Express.js, and MySQL.
- Designed and implemented complete Lead Management with lead capture, assignment, tracking, follow-up scheduling, and conversion workflows.
- Integrated Meta (Facebook & Instagram) Lead Ads using Webhooks for real-time lead synchronization into the CRM.
- Built duplicate lead detection and automatic lead merging to prevent redundant customer records across multiple marketing channels.
- Developed Property Management modules for projects, inventory, unit availability, pricing, and booking management.
- Implemented Customer Relationship Management modules for enquiry tracking, customer profiles, communication history, and lifecycle management.
- Developed Loan Management workflows including eligibility calculation, EMI calculation, loan application tracking, approval stages, and bank coordination.
- Created dynamic quotation, receipt, invoice, payment, and financial document generation with PDF export functionality.
- Built interactive Analytics Dashboards with business KPIs, sales performance, revenue insights, conversion rates, and graphical reports.
- Designed secure Role-Based Access Control (RBAC) with JWT authentication for Admin, Sales Manager, Sales Executive, Loan Officer, and Channel Partner users.
- Developed RESTful APIs for CRM modules with proper validation, pagination, filtering, and optimized database queries.
- Optimized MySQL schema design and indexing to improve application performance and reduce response time.
- Implemented file and document management for customer KYC, agreements, payment receipts, and supporting documents.
- Built notification and reminder systems for follow-ups, pending tasks, customer interactions, and important business events.
- Integrated email services using Nodemailer for automated customer communications and business notifications.
- Implemented dashboard filtering, advanced search, sorting, and report export functionality.
- Developed responsive UI components using React.js and Material-UI for desktop, tablet, and mobile devices.
- Implemented reusable frontend architecture with modular React components to improve maintainability and scalability.
- Collaborated directly with stakeholders to gather requirements, convert business processes into technical solutions, and continuously enhance CRM functionality.
- Managed production deployment, bug fixing, performance tuning, and post-deployment support throughout the software lifecycle.
- Leveraged AI-assisted development tools including GitHub Copilot, Cursor, and Claude AI to accelerate development, debugging, documentation, and code optimization.
- Improved operational efficiency by approximately 40% through workflow automation, centralized data management, and process optimization.

ROLES & RESPONSIBILITIES

- Requirement analysis and system design.
- Frontend and backend development.
- API integration and database management.
- Application security and authentication.
- Performance optimization and debugging.
- Production deployment and support.

TECHNICAL SKILLS

Programming: JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, Material-UI, React Router

Backend: Node.js, Express.js, REST APIs

Database: MySQL, DatabaseDesign, Optimization

Cloud: AWS (S3, Amplify, Route 53, CloudFront)

Libraries Tools : Axios, Chart.js, JWT, bcrypt, Multer, Nodemailer, PDFKit Dev

Tools: Git, ESLint, Prettier, GitHub Copilot, Cursor, Claude AI

AI-ASSISTED DEVELOPMENT

- Leveraged AI-powered tools such as GitHub Copilot, Cursor, and Claude AI to accelerate development workflows.
- Used AI tools for code generation, debugging, and optimization.
- Assisted in building APIs, frontend components, and documentation using AI.
- Improved development speed and code quality through AI integration.

ADDITIONAL EXPERIENCE & CONTRIBUTIONS

- Mentored junior developers and guided best practices.
- Maintained version control using Git.
- Worked closely with stakeholders for feature improvements.
- Prepared technical documentation and user guides.

EDUCATION

B.Tech in Mechanical Engineering

Lenora College of Engineering, Rampachodavaram | 2022

CERTIFICATIONS

AWS Certified Cloud Practitioner

Certified JavaScript Developer
